On October 11, 2015, Herbert Schumm, MD and Paula Schumm were announced the winners of the 2015 Mercy Club Award. This is the 37th year for the Mercy Club Award, established by St. Rita’s Health Care Foundation to recognize humanitarian service to the community.

Trained in family medicine, Dr. Schumm was in private practice before he became the vice president of medical affairs for St. Rita’s Medical Center. He served in this role for 12 years, before becoming the president of St. Rita’s Professional Services in the fall of 2012. Dr. Schumm’s wife Paula volunteers at St. Rita’s every Tuesday, visiting different units and playing music for patients on instruments including the banjo and dulcimer. The Schumms’ commitment to St. Rita’s is undeniable; however, their service extends far beyond the walls of the medical center.

continued on next page
The Schumms have been instrumental in the community in many ways. For many years, Dr. Schumm has provided sports physicals for hundreds of high school athletes in Spencerville, free of charge. He played a major role in fundraising for the new Spencerville school and spent numerous hours restoring the village's train depot. He serves on a number of committees at Lima Community Church of the Nazarene, teaches a Bible study, gives a monthly devotional at Lochhaven Assisted Living Apartments, and has volunteered countless hours at Camp Cotublic in Bellefontaine. Additionally, Dr. Schumm and Paula are very active with WTLW, a religious and family-entertainment TV station in Lima.

Dr. Schumm has also handcrafted many beautiful instruments for members of the community, including his wife Paula, who uses her many musical talents to serve others. When she isn’t volunteering and playing her instruments at St. Rita’s, she is accompanying for high school choirs, playing for local preschools and nursing homes, and helping with the all-school musical at Spencerville. Paula recently started playing instruments for hospice patients who are interested in music therapy.

Dr. Schumm and Paula have demonstrated countless acts of kindness in the community, often for individuals who cannot do anything for them in return. For example, Dr. Schumm once went above and beyond to raise funds and help purchase a new handicap accessible van for a family with a disabled child on chronic dialysis. Another example involved the Schumms throwing a graduation party for a local high school graduate with no permanent residence or family to speak of. The celebration included dinner, cake and many gifts from strangers.

These stories illustrate that the Schumms are the kind of people who always put others before themselves, which is exactly the kind of service that the Mercy Club Award recognizes each year.

The annual Mercy Club Reception is hosted by St. Rita’s Health Care Foundation to celebrate continued support from the community, businesses, individuals, St. Rita’s employees, St. Rita’s Volunteer/Auxiliary, and St. Rita’s Medical Staff.
LETTER FROM PRESIDENT & CEO BOB BAXTER

As we head into this Holiday season, I find myself reflecting on the idea of communities—people coming together to support and care for one another. At St. Rita’s, we are proud of the many communities we are blessed to be a part, and wish them all a very blessed Christmas and happy holiday season.

OUR TEAM

The first community that comes to mind during the holidays is our team of about 3,400 colleagues with whom we spend much of our time and energy. Together, we strive to provide the very best care—mind, body and spirit—to friends and neighbors in need, all while making healthcare easier. This goal drives every decision we make—from how we interact with anyone who walks through our doors, to the investments we make to ensure the long-term viability of St. Rita’s.

And we have some incredible examples of colleagues who not only live our Mission at work—but in everything they do. You may have just read about this year’s Mercy Club Award winners, Dr. and Mrs. Herb and Paula Schumm. Perfect examples of our Mission come to life.

We also just recognized this year’s Legends of St. Rita’s award winners. These Legends truly go above and beyond their job descriptions to ensure the care of anyone they meet. This year’s Legends are: Jaime Frye, Susan Hymer, Marjorie Lyon, Jolene Radel, Bernice Townsend, Suzanne Warnecke.

And finally, we know that to continue the tradition set forth by our founding Sisters of Mercy, we must always be looking for new leaders who will carry our Mission into the future. Our Emerging Leaders program identifies mission-driven, talented leaders in our organization who may be called upon to assume more and more leadership roles.

OUR NEIGHBORHOODS

Beyond the walls of our hospital, St. Rita’s reaches into our many neighborhoods to provide care where and when our families need it. And we continue to look for up and coming opportunities to meet people where they are—knowing that access is key to better health.

Just in the past few weeks we opened the Mercy Health—Elida School Health Center. Located in the field house, this school-based location provides walk-in appointments for students and staff at Elida, supporting the education of students in our community. But this center also serves the general public with walk-in appointments and some later hours for urgent care.

We also recently broke ground for a new family practice in Ada. This practice will serve the community of residents and students, providing more convenient access to care. We expect this practice to open during the spring.

And, by a generous gift of a former patient, we have renovated the waiting area in our Putnam County Ambulatory Care Center (PCACC) and Emergency Department. The PCACC serves a critical role in providing care to our neighbors to the north, so we are pleased to invest in that facility.

OUR REGION

And finally, our medical community serves our region of 10-counties and beyond as the largest and most extensive health care provider. And with this privilege, comes the responsibility to be continually investing in our services.

Earlier this year, we were the first provider in the region to offer 3D Mammography—a technology that has the potential to catch cancer sooner and with fewer unnecessary scares. We also brought the newest daVinci Xi surgical robot to Lima, strengthening our already world-class robotics surgery program.

Additionally, we opened the region’s first valve clinic to improve the care for those struggling with structural heart and arrhythmia issues. And we are in the process of building the region’s first Hybrid Operating Room which will allow us to treat even more complex heart diagnoses.

It is through the support of each of you that we can continue serving these communities each and every day. Thank you.

Warmest Regards,

Bob Baxter
President and CEO
St. Rita’s Health Partners
Mercy Health — Elida School Health Center

The Mercy Health — Elida School Health Center began seeing patients on Monday, November 2.

Mercy Health will offer the services of a certified nurse practitioner to meet the healthcare needs of community members. The health center will also offer flu shots, physicals and immunizations and will accept both self-pay patients and those with insurance.

Through this partnership, Elida Schools and Mercy Health are working to provide convenience to parents and improve student wellness and focus academics by helping sick children get well and back into the classroom. Clinic manager Mindy Wise said, “Mercy Health St. Rita’s wanted to extend our mission and provide another access point for health care. We found that there was a need in the Elida district. We know that kids who are healthy learn better, and we wanted to be a part of that.”

HeartChase Lima—building a healthier community and having fun in the process

In our ongoing efforts to support, educate and model healthier lifestyles, St. Rita’s Health Partners was once again the presenting sponsor of the American Heart Association’s HeartChase event in Lima. The good-cause community adventure game took place on September 12, 2015 in Downtown Lima and raised nearly $65,000 to benefit life-saving heart health research.

In a frenzied pursuit of hidden rewards, nearly 200 participants completed a dozen checkpoints with different activities that encouraged healthy lifestyles. “Think of the around-town excitement from shows like The Amazing Race meets wacky team-based games like Minute-to-Win-It” says Amanda Mills, HeartChase Coordinator. “And when you combine awesome games, friendly competition, and a very important mission, you’ve got great fun with a purpose.”
Robotics experience for local high school students

St. Rita’s Health Partners hosted the second annual Robotics Student Experience at the UNOH Event Center on October 21. Approximately 170 students from Ottawa-Glandorf, Celina, Kalida, Bath, Lima Senior, Delphos Jefferson, Shawnee and Wapakoneta attended the educational event and had the opportunity to learn from robotics vendors including Coldwater Machine, DaVinci and the Lima YMCA Bean Bots.

The students attended a variety of informational sessions, including a DaVinci Robot simulator where they were given the opportunity to operate the DaVinci robot that our robotic surgery team uses. With robotic technology more prevalent than ever before in local industries, St. Rita’s is proud to offer this unique, hands-on opportunity to students in our community.

Superheroes at St. Rita’s

As part of a new program “Alter Ego Comics’ Heroes for Hope,” superheroes Batgirl and Hawkeye stopped by to say hello to some of St. Rita’s youngest patients and offer words of encouragement. The superheroes also supplied the patients with fun treats like comic books and their own superhero masks.

Alter Ego Comics’ Heroes for Hope is organized by Marc Bowker, owner of the comic book store in downtown Lima. The superheroes are some of his loyal customers who enjoy dressing up as their favorite characters. According to Bowker, the program is all about bringing joy to kids who are going through a challenging time. St. Rita’s was the first visit for Heroes for Hope.

The superheroes made visits to 10 patients in pediatric rehab and Pediatrics of Lima, but first, they made a special stop in the main lobby for a young patient named Jonah Aregood.

Jonah is the only patient in our area diagnosed with CVID, or common variable immune deficiency. Jonah and his family spend a lot of time traveling back and forth between doctors’ appointments. He sees a total of 16 specialists in Dayton and at Cincinnati Children’s and he also comes to St. Rita’s for therapy. There is no cure for Jonah’s condition, and according to Jonah’s mom, “His medical issues have become so complex and frustrating this last year that a team at National Institute of Health is looking into taking his case.” With CVID, Jonah’s body isn’t making the antibodies that normal healthy people make to fight infections and he does not mount responses to vaccines, so the family is constantly worried about being in contact with the public.

Because Jonah cannot be around other sick patients, the superheroes gave him a one-on-one visit. Jonah’s mom said activities like this help Jonah feel included, like a normal kid. Before the visit was over, Jonah had to put on the mask he wears to protect him from breathing infectious air. He said that he was a little self-conscious about wearing the mask because it makes him feel different from other kids, but Hawkeye let him in on a little secret. He told Jonah: “I know a lot of superheroes who wear masks. Masks are a disguise reserved for the bravest of them all.”

Thanks to these Heroes for Hope, Jonah went to his therapy appointment feeling like a superhero himself, ready to fight the battle of CVID!
St. Rita’s Dental Van

Originally funded by the St. Rita’s Health Care Foundation and many community partners, the Dental Van provides cleaning and preventative dental care for children who may not otherwise receive it. This is an on-going partnership between St. Rita’s Health Partners and Health Partners of West Central Ohio and it aims to improve the lives of our friends and neighbors in the community. “Helping so many children who can’t get help...That is what we are all called to do,” said Lynne Adams, who coordinates the dental van program.

Extreme Community Makeover

Crime Victim Services is a United Way-supported victim support program in Lima and Putnam Counties that works to help victims prevail over various traumas in life. CVS has a variety of 24-hour crisis services and offers counseling, court advocacy, victim ministry and violence prevention education.

In August, a team from St. Rita’s visited CVS and provided the building an “Extreme Community Makeover” by helping to paint doors, walls and stairwells. Through this service project our volunteers created a positive atmosphere for individuals to walk into when they visit CVS. Vice President of Mission and Values Amy Marcum said this project was chosen because, “We connect with CVS a lot and they provide many great services for our community. It’s important to give back however we can.”

At the end of the day when the project was completed, team members were proud of the work they accomplished for CVS. Project leader, Manager of EVS and Transport William Myers enjoyed the time spent at CVS and said, “I want to thank everyone who donated their time and effort. It was a fun-filled day and our services were greatly appreciated by everyone at CVS!”
Celebrating a year of success for St. Rita’s Weight Management program and 5,169 pounds lost

On Saturday, Sept. 19, St. Rita’s Weight Management team hosted its first annual bariatric surgery patient picnic to celebrate the success of patients in the weight management program. Patients, St. Rita’s staff, and other guests gathered at Ottawa Metro Park to enjoy healthy dishes, share recipes and share their stories of weight loss through the program.

St. Rita’s Weight Management Center began seeing patients in May 2014 and the first surgery was performed by Dr. Jason Bowersock on Aug. 21, 2014. To date, the center has completed 100 surgeries and the total weight loss for all surgical patients is 5,200 pounds, which is more than the average car weighs. The average weight loss for all surgery patients who are now anywhere from two weeks to one year out from surgery is 61.5 pounds and 11 post-surgical patients have lost more than 100 pounds.

Dr. Stephanie Dunkle-Blatter, Medical Director of St. Rita’s Weight Management Center, shared: “The picnic was a great opportunity to celebrate success and show gratitude. I’m really proud of what we have accomplished in our first year. There are many people who work hard behind the scenes to make this program successful, and, of course, the patients are the ones who do the hard work on a daily basis. It is exciting and rewarding to see the hard work pay off in the form of better health.”

National Mammography Day

In honor of National Mammography Day on October 16, St. Rita’s Health Care Foundation teamed up with Women’s Wellness to throw a pink celebration in the High Street Mall. Many employees enjoyed pink cookies and had their photos taken with pink props at the photo booth. For a donation to the Foundation’s “Invest in Your Health” campaign, employees could also take home pink t-shirts and piggy banks!

*Invest in Your Health is the capital campaign currently raising funds for additional 3D Mammography Units and the Hybrid Operating Room.*
Gene Nameche was a successful, prominent figure in the Lima community. He was a graduate of Lima Central High School, an original employee at the Ford Motor Company, the owner of Yocum Realty for 30 years and owner of the Court Café along with his wife, Charlene. Gene also served on the Board of Directors for The Lima Board of Realtors, Samaritan House and Crime Stoppers. He was well known for his real estate development and the way he changed Lima’s landscape, but ahead of everything else, Gene loved his family.

In August 2014, Gene Nameche was diagnosed with lung cancer. His family had their suspicions after an irregular chest x-ray, but according to Tami Stanford, Gene’s daughter, “It was all confirmed in August with the oncologist Dr. Rhoades. That’s really when our journey with hospice started.”

Gene was 82 years old, and with the diagnosis, he was given four to six months to live. Following this news, the Nameche family wondered if it was too early to contact hospice care; but according to Katie Hunt, medical director of St. Rita’s Hospice, this is a mistake that too many people make. With a terminal illness, she says it is never too soon to reach out to hospice. Surely hospice can provide care and comfort in the last few days of an individual’s life, but early intervention allows the team to provide much more effective and comprehensive care—mind, body and spirit—for both the patient and the family.

When the Nameches reached out to hospice in August, the care team was able to provide support right away. A doctor was assigned to the family, which meant that Gene could stop going to so many doctor’s appointments and start spending more time doing what he wanted—being with his family. Members of the St. Rita’s Hospice team made themselves available to the family 24/7 via cell phone and text message whenever the family had questions. Most memorably, hospice also made one last Florida vacation possible for Gene. The hospice team coordinated all elements of Gene’s care with the St. Petersburg area hospice program before the Nameches headed south.

In late October, they headed to the Florida condo where Gene was able to spend many days by the ocean, with the sunshine on his face and a glass of orange juice in his hand, without doctor’s visits, shots or tests. Family members took turns visiting Gene and Charlene in Florida, but when his health took a turn for the worse after Thanksgiving, St. Rita’s Hospice helped make it possible for Gene to come back to Lima so he could spend his last days at home.

“It was just so fluid the way that the hospice team transferred everything down to Florida,” said his daughter Tami. “Everyone knew exactly what was happening. All the equipment he needed was brought into the condo, and then the same thing vice versa at home. There was a ‘changing of the guard’—one hospice crew telling the other, ‘This is his condition, these are his vitals, he is your patient now.’”
Warrior Mode

Brad Keenan with Warrior Mode presented Mary Kay Verhoff, Director of Women’s Wellness Center, a $1,000 check. This donation will go toward St. Rita’s 3D Mammography program, which is newly accredited by the American College of Radiology.

Bath vs. Elida “Pink Out” Football Game

St. Rita’s Health Partners was a proud sponsor of the Elida vs. Bath Pink Out Football Game on Friday, October 30th at Bath High School.

St. Rita’s provided pink wristbands for all the players, pink bows for the cheerleaders and the pink footballs that were tossed to fans during quarters and halftime. Both schools sold pink t-shirts for the game as a fundraiser for St. Rita’s 3D Mammography Program. At halftime, Beth Nichols presented a check to St. Rita’s Health Care Foundation for $3,745.

When Gene, Charlene and their daughter Gina Palmer made the flight from Florida back to Ohio, his medical team was unsure whether or not he would make it. As Tami clearly remembers it: “I ran out onto the landing when the plane arrived and I could see my mom’s face through the window. She looked at me and gave me a thumbs up, and that’s when I knew that he made the flight. He was so strong and he really wanted to be home.”

Gene’s family had the house decorated for Christmas when he got home and for the next five days he was surrounded by loved ones, Christmas lights, cheerful music and toasty fires burning. St. Rita’s Hospice team helped make him comfortable so he could live his final days just the way he wanted to—beside his family, celebrating the Christmas holiday he loved.

“That’s what hospice is all about,” said Katie Hunt, “allowing you to script the last few pages of your book. Gene always had been the author of his own life. He lived life exactly the way he wanted to—that’s what was so moving about his story. He and his family got to write the last few pages.”

Gene Nameche passed away on December 10, 2014. In the place of memorial contributions, the Nameche family asked mourners to send red poinsettias to celebrate Gene’s love of Christmas. And following the funeral, the family donated the hundreds of flowers to patients at St. Rita’s Medical Center and Lima Memorial, hoping to brighten the holiday for patients spending Christmas in the hospital.

As Katie Hunt remembered, “When Gene did pass, these red poinsettias just started pouring in. And I’ll tell you—I felt so proud. The entire lobby was a sea of red beauty, and it was from a patient who we had truly touched.”
Share your blessings

“Share Your Blessings” was started in 1987 as a wonderful way to remember or honor a loved one at the Holidays and make a charitable donation to St. Rita’s Medical Center at the same time.

2015 marks the 28th Anniversary of “Share Your Blessings.” For each donation received, an Angel Bell ornament will be placed on the Christmas Tree in the Father Larry Elting Chapel. The chapel is open 7 days a week, 24 hours a day. “Share Your Blessings” donors and family members are invited to visit the chapel any time during the holiday season.

Donations can be designated for Hospice, as well as a number of additional areas of the Medical Center listed below.

Please designate (check box) my contribution to be used for:

☒ [ ] Hospice
☒ [ ] The Heart and Vascular Center
☒ [ ] Hybrid Operating Room
☒ [ ] Putnam County Ambulatory Care Center
☒ [ ] St. Rita’s Regional Cancer Center
☒ [ ] Delphos Ambulatory Care Center
☒ [ ] Women’s Wellness Center—3D Mammography
☒ [ ] Other ________________________________

† Deceased
Our Mission
We extend the healing ministry of Jesus by improving the health of our communities with emphasis on people who are poor and under-served.

Our Values
Compassion, Excellence, Human Dignity, Justice, Sacredness of Life and Service.

Our Promise
To make lives better—mind, body and spirit. To genuinely enjoy being of service. To make healthcare easier.
